Intent	Implementation	Cost	Impact
<i>Increase opportunities for pupils to participate in physical activity</i>			
- To provide children with daily after-school clubs to engage in physical activity. - Encourage the development of healthy active lifestyles and life-long participation. - Target children who do not engage in sport outside school - Sports TA to increase sporting opportunities	- Offer clubs appropriate to children in KS1 and KS2 - Ensure a range of fun, engaging activities are provided - Maximise take up ensuring as many children as possible engage - Sports specific TA hired to provide transportation of students to Millwall Park - PE support staff to aid with walking to and from the park - PE TA to referee, coach, manage and teach. - Sport TA used 24 weeks a year excluding gymnastics and basketball where we are in the sports hall.	2 x 1hr clubs per week (30 weeks) Coach cost: £30/hr 2x30x£30 £1800 Sports TA cost: £9360 – £13 per hour x 6 hours = £78 per day £390 per week x 24 weeks = £9360	80 children/week engaged in after-school non-selective physical activity. - Over the year children engage in additional Cross Country, Football, Dodgeball, Netball, Tag Rugby, Cricket, Gymnastics, Basketball, Athletics and Tennis. - Students have lessons in better facilities and more space at Millwall Park with the sports TA aiding the lessons, we are also able to have competitive fixtures against sister school. - Higher level of learning/performance with 2 members of specialised staff - Children's progress significantly increased

			and students motivation increased
• Provide swimming lessons for children in year 3	• Two weeks of intensive swimming lessons in the Olympic pool for a year 3.	Total - £3300	• 17 out of 44 pupils can swim 25m competently, using a range of different strokes and be able to perform safe self-rescue in different water-based situations. • Children will be able to access PE lessons, clubs and competitions effectively.
<i>Challenge children with the most potential by increasing competitive sport.</i>			
• Challenge the most able pupils through select clubs and teams • Build resilience and determination through competitive sports • To develop teamwork and leadership skills.	• 2x elite after-school clubs per week to develop school teams (changing each half term) • Give each child who competes a kit to wear for the day of the competition.	1 x 1hr clubs/ week. £30 per hour for coach x 2 = £60	• To have a school team participating in 100% of LA competitions and achieve consistently. • Children will feel confident and like a team encouraging them to excel.

		£60 x 30 weeks = £1800	
<i>Improve the confidence and competence of targeted children</i>			
• Provide lunchtime/after school booster for children who need extra support in particular SEN and lowest 20% achievers.	• Recap on topic and skills learnt during PE lessons that week in a fun and engaging way.	20 weeks x £33.5 p/h Total - £670 (x1 staff)	• All children from Y1-6 who need extra support will engage in a lunch time booster. • 100% of children will improve their competence and confidence in PE.
<i>Ensure sufficient good quality equipment and provision.</i>			
• Provide sufficient, correct sporting equipment for children to access all lessons and a variety of after-school clubs effectively. • Ensure additional equipment to play sports during lunchtime. • Ensure sufficient equipment for sports day events.	• All lessons provide correct equipment • All lessons ensure children have one ball each to maximise practice.	£3710	• All equipment is of a high standard to ensure the best outcomes of physical activity.

Total Spend		£18840	
Swimming data	Currently able to meet NC expectations: Y6 - 92%
